Fazaia Inter College Jinnah Camp Chakalala

*2013 - 2015*                          *Percentage: 86.18*

### Matriculation (Science)
Fazaia Inter College Jinnah Camp Chakalala

*2011 - 2013*                          *Percentage: 89.90*

## WORK EXPERIENCE

### Internship
PTCL Headquarter G-8 Mauve Area Block-E G-8, Islamabad

*11/2019 - 2020*                          *Islamabad*

Achievements/Tasks
- Worked in Database department.
- Learned using SQL commands in Linex Operating system.

### Junior Software Engineer
Plan D Studios

*11/2019 - 2020*                          *Rawalpindi*

*A software house working on multiple web, Android and IOS projects.*

Achievements/Tasks
- Currently working on MVC framework (Codeigniter).

## SKILLS

C++ / C#  HTML/CSS  PHP  Ajax  Angular js
SQL  JQuery  Javascript  MySQL  JAVA
Android  ASP.NET

## PERSONAL PROJECTS

Final Year Project (Commercial Insurance APP using AI) (2018 - 2019)
- It is an industrial based project for Takaful Emarat. Our main objective is to convert their insurance website into an app and provide them with some other beneficial features. It would allow company to keep track of customers driving patterns and classify drivers as good or bad. It would also provide user with a health age predictor. Also we can claim accidents through location tracker. Moreover we provide user with a chat bot for getting answers about their queries.

Database Management system for Railway
- It was made using Oracle.

Khaadi Website
- HTML and CSS was used for this project

Railway Reservation System Website
- Visual studio was used for making it along with MySQL database.

Testing of Railway Reservation Website
- Black box as well as White box testing was performed. Automated testing was done through selenium.

Face Recognition System

Testing of Airplane Management System
- black box and white box testing was performed.

## CERTIFICATES

- Microsoft Office Specialist
*Microsoft Office 2016*

- Certificates for debating in school/college.

## INTERESTS

Web development   Database Management
Software Testing   Quality Assuarance
Data mining & warehouse   Android Development
Machine Learning
